Hi, I'm a UI/UX Designer from Himachal, specializing in design thinking, user research, and crafting clean, intuitive interfaces for seamless digital experiences.

Work Experience

Mar, 24 - July, 24

Freight Master

My role:- Product design

FreightMaster is a leading freight management company that optimizes and efficiently manages the operations of truck fleets.

- Led user research to identify key pain points and usability challenges.
- Worked on wireframes to ensure a smooth user experience.
- Developed tailored UI/UX solutions and shaped the overall design direction

Dec, 23 - Mar, 24

Atomic

My role:- Product design

Atomic is an app that makes habit-building engaging with personalized tools and an AI guide to help users develop positive habits.

- Conducted user research to gather insights on user needs and preferences.
- Designed the app's interface to create an engaging and intuitive user experience.
- Played a key role in shaping the app's visual and functional elements.

Oct, 23 - Dec, 23

Klear

My role:- Web design

Klear is a smart expense management software designed to boost profits through efficient financial tracking and reporting.

- Carried out comprehensive user research to understand target audience needs.
- Created wireframes to outline the user journey and interface structure.
- Designed the final interface, ensuring a cohesive and user-friendly experience.

Sep, 23 - Oct, 23

Corespace

My role:- Web design

Corespace is a global platform that accelerates coworking adoption by helping users discover collaborative workspaces.

- Conducted user research to identify key user needs
- Translated research insights into a functional and intuitive interface design
- Focused on creating an engaging user experience that aligns with user behaviors.

About me

After graduating, I immersed myself in learning UI/UX design and began freelancing, gaining practical experience across various projects. I'm dedicated to solving problems and creating intuitive, user-centered designs. Skilled in tools like Figma and Webflow, I focus on delivering clean, effective interfaces. I enjoy working collaboratively and continuously seek to stay updated with the latest design trends.
